

BEST CD PLAYER E 750 - E 1.500

Cambridge Audio Azur 840 C

Given that Cambridge Audio is best known for its budget wonders, the new Azur 840 CD player and amp came as something of a surprise. The 840C is the fruit of a partnership with Swiss digital experts Anagram, resulting

in a genuinely innovative CD player of extraordinary ability given its price point. Its sound is beautifully subtle and refined -truly, an 'open window' on the music being played. At E 1399, it's a bargain.

BEST AMPLIFIER E 750 - E 1.500

Cambridge Audio Azur 840 A

Not content with developing our new Gold Award-winning CD player in the E 750-1500 category, Cambridge Audio has gone and made it double! The Azur 840A is no ordinary amp: it features a new and genuinely

innovative technology that Cambridge calls Class XD. What you get is 120 watts per channel combined with tremendous subtlety and refinement, and the most glorious midrange this side of E 1500
